# INAUGURAL ADDRESS

by Mayor Harry H. Meader

## *Gentlemen of the Council:*

In accordance with the provisions of our City charter and the laws of New Hampshire, the citizens of Rochester have delegated to us the power to conduct for them the affairs of this City for the year 1936. We are the servants of ALL the people, chosen by them to carry on and transact the big business of spending nearly a half a million dollars of their money.

Partisan politics must never enter into our policies as we are pledged to serve the best interests of all the people.

If we carry out this pledge on a conservative business basis, we shall be able to lower the tax rate and accomplish all that is necessary in the way of good government.

This trust should always be sacred with us. We should be ever mindful of its responsibilities and appreciative of the confidence placed in us. We must work together in harmony for the best interests of all the people, conducting the affairs of the city upon sound business principles.

## *Finance*

The financial condition of the city is not serious. We should, however, adopt a pay-as-you-go policy and keep our credit good for any emergency.

The following is a statement of the financial standing of the City ending December 31, 1935.

## *Financial Statement*

### *Funded Debt January 1, 1936*

School house bonds .....	\$28,000	00
Sewer construction notes .....	30,000	00
Water construction notes .....	59,000	00
Total .....	\$117,000	00

## *Schools*

Of equal importance to the handling of our finances, is the improvement of the educational facilities of our

City. To my mind, gentlemen, there is no greater obligation than that of the present generation toward the enlightenment of those who are to follow in our footsteps. There is but one way in which to meet this situation; that is by the far-sighted and constructive improvement of our local school system, not only in the selection of good teachers and improved text books, but also in the improvement of school buildings and their equipment. I would suggest that you consider very carefully the enlargement of our high school to meet the demands of increased enrollment and also a gymnasium that could be used as an assembly hall as well as for basketball.

#### *Roads, Bridges and Drains*

Next to our schools the highways take the largest amount of money. With so large an area of our City rural and with nearly 200 miles of highways, makes the task of determining the expenditures in this department more arduous; therefore requiring more careful consideration. Since the only benefit rural taxpayers receive is good roads, it is our duty to do all we possibly can in improving all highways. Our City's highways now compare favorably with those of our neighboring cities. It seems most advisable that the Highway committee should consider the following unfinished roads: Portland street to East Rochester, Salmon Falls road, Pickering road, and Old Dover road—continuation of Charles street, before new projects are started. We are indeed fortunate in having for our Highway Commissioner one whose life's work has been road building; under his skilled management with the assistance of the Highway committee we should be assured that full value is received for all money expended.

#### *Fire Department*

The Fire department is one of the most important departments and should receive very careful attention. Upon the efficiency of this department depends the protection of our property and sometimes our lives. Our fire losses have been very small and this speaks for the efficiency of the department. The members of this department, like the Police department, come in direct contact with the people and therefore should be kind

and courteous at all times, because, after all, they are the servants of the people.

#### *Water Department*

Good pure water is most essential for the growth and prosperity of any city. We are fortunate, indeed, in having a plentiful supply of very fine water. This department has been handled very satisfactorily under the guidance of our efficient Water Commissioner. I believe that by extending our water and sewer mains, we shall create more taxable property, thereby increasing our valuation.

#### *Police Department*

The affairs of the department have been carried on in a very competent and pleasing manner, due to the high character and good judgment of the men in charge, who have merited much favorable comment for the very courteous treatment given to everybody coming in contact with them.

#### *Public Library*

The report of the librarian shows, by the increased attendance to the reading room, the large circulation of books and the amount of reference work done by the high school pupils, the growing importance of this institution to our citizens. Many of our high school courses would be difficult to complete without the use of the public library for reference work.

More space is needed to care for and preserve the ever increasing number of books. The splendid work of the library has been due to the close application and conscientious endeavor of our most respected Librarian and her corps of assistants.

#### *Shade Trees, Parks and Commons*

Our City has been very fortunate to have had such a public-spirited citizen as Charles A. C. Hanson, who donated the land and made it possible for us to construct a fine park for the amusement of our young people. Our appropriations for this department should be as generous as possible so that all our numerous small parks may have proper care.

There is need of much work to be done in beautifying our common and many of our streets are much in

need of shade trees. Due care should be exercised in the preservation of all our shade trees which add materially to the beauty of our city.

I sincerely hope that the committee will hesitate and consider carefully before allowing the destruction or removal of a single tree.

#### *Conclusion*

We have a City of which to be proud because of our high type of citizenship, made up of conservative thinking, common sensed home owners who have demonstrated so many times, when in a crisis their sound reasoning and good judgment, by their perfect cooperation. Let us strive to so conduct the business of the City this year as to meet the approval of all our people and never give cause for them to feel that their confidence has been misplaced. Let us all keep in mind that it is our duty to pass on to the next generation, their rightful heritage, the affairs of our City in as good condition or better than we received it.

Your city and my city:  
And O how much it holds—  
Your home and my home—  
Secure within its fold:  
Your heart and my heart  
Beat quicker at the sight:  
Your hand and my hand  
Must strive to keep it right

## CITY GOVERNMENT AS ORGANIZED JANUARY 1, 1936

---

*Mayor, HARRY H. MEADER*

---

### COUNCILMEN

*Ward One*—Alfred W. Kay, George A. Pray, Albert R. Chalmers.

*Ward Two*—John F. Conrad, Ernest W. Campbell, Arthur G. Alden.

*Ward Three*—Samuel Hale, J. Ernest Richey, Alfred J. Ruel.

*Ward Four*—George J. Potvin, Alfred J. Larochelle, Frank McDonald.

*Ward Five*—Joshua Studley, Harry S. Johnson, Ralph E. Came.

*Ward Six*—Gordon Cushing, Kenneth H. Brock, Guy E. Chesley.

---

*City Clerk*—Frank E. Hussey.

# IMPORTANT RESOLUTIONS AND ORDERS

---

Passed by the City Council, 1935

---

## RESOLUTION TO PROVIDE FOR NECESSARY CITY EXPENSES, PENDING THE PASSAGE OF THE ANNUAL APPROPRIATION

*Resolved by the Mayor and City Council of the City of Rochester:* That pending the passage of the annual appropriation measure for the year 1935, the Mayor be and hereby is authorized and empowered to validate orders on the City Treasurer for all duly approved and properly classified claims for operating expenses of the City and its municipal subdivisions.

Passed January 2, 1935.

---

## RESOLUTION TO HIRE MONEY IN ANTICIPATION OF TAXES

*Resolved by the Mayor and City Council of the City of Rochester:* That the Committee on Finance be authorized to hire in anticipation of taxes for the year 1935 a sum not exceeding one hundred and fifty thousand dollars, to be hired at such times and to be taken up at such times as the balance in the treasury will permit. Said sum to be hired on notes of the City.

Passed January 2, 1935.

---

## AMENDMENT TO ORDINANCE RELATING TO CONSTRUCTION OF SIDEWALKS

*Resolved by the Mayor and City Council of the City of Rochester:* That Section 5 of Chapter 11 of the Revised Ordinances of the City of Rochester be amended by striking out all of Section 5 and in its place inserting the following:

Section 5. That all sidewalks, built by the City of Rochester, shall be constructed by and under the supervision of the Highway Department of said City. That such sidewalks shall be constructed yearly as the said City Council may determine necessary to provide for the convenience of the traveling public.

That said City Council shall select each year one ward of the City in which to make sidewalk improvements, expending therein a sum not to exceed one thousand dollars in any one year. That no appropriation shall be had any two consecutive years in one ward until it has been found by said City Council that all other sidewalks in said City are in proper condition excepting in cases of emergency where the safety of the traveling public requires construction to be had.

Passed February 5, 1935.

---

#### AMENDMENT TO ORDINANCE PAY OF ASSISTANT IN CLERK'S OFFICE

*Resolved by the Mayor and City Council of the City of Rochester:* That we amend paragraph three of Chapter XXIV of the Revised Ordinances of the City of Rochester by striking out the word "Nine" in the fifth line thereof and inserting in its place the word "Ten" so that said paragraph as amended shall read as follows:

The City Clerk, sixteen hundred and fifty dollars, and in addition thereto twenty-five cents for every permit for registration of automobiles issued by him, and an assistant in the Clerk's office to be engaged by the Clerk at a maximum salary of ten hundred and fifty dollars per year. The City Clerk and Assistant Clerk to be paid weekly from the Salary Department.

Passed February 5, 1935.

---

#### AMENDMENT TO ORDINANCE RELATING TO SIDEWALK CONSTRUCTION

*Resolved by the Mayor and City Council of the City of Rochester:* That Section 5 of Chapter 11 of the Revised Ordinances of the City of Rochester, as amended February 5, 1935, be further amended by striking out all of second paragraph of Section 5, so that said Ordinance as amended shall read as follows:

Section 5. All sidewalks built in the City of Rochester shall be constructed by and under the supervision of the Highway Department of said City. Said sidewalks shall be constructed yearly, as the said City Council may determine necessary to provide for the convenience of the traveling public.

All Ordinances and parts of Ordinances inconsistent with this Ordinance are hereby repealed and this Ordinance shall take effect upon its passage.

Passed April 2, 1935.

---

#### AMENDMENT TO ORDINANCE RELATING TO POLICE UNIFORMS AND EQUIPMENT

*Resolved by the Mayor and City Council of the City of Rochester:* That Chapter V of the Revised Ordinances of the City of Rochester be amended by adding to said Chapter the following Section to be known as Section 12.

Section 12. The City of Rochester may expend yearly a sum not exceeding one hundred dollars to provide the members of the Police Department of said City with uniforms and equipment as said City may deem necessary to enable said officers to discharge their duties. That all equipment furnished by said City to its officers shall be surrendered by any officer at the time he ceases to be longer employed as a member of the Police Department of said City.

Passed April 2, 1935.

---

#### AMENDMENT TO ORDINANCE LICENSING TAXIS

An Act Relating to Licensing of Public Motor Vehicles known as Busses, Jitneys or Taxis.

*Resolved by the Mayor and City Council of the City of Rochester as follows:*

Section 1. Any person, firm, association of persons or corporation desiring a license to operate a motor bus, jitney or taxi in said City shall petition the said City Council, giving their name, place of residence, post office address, and a brief description of the vehicle to be licensed, including the make and the type, maker's number, number of cylinders, horse power, and color of the vehicle, together with the state license number for said vehicle and the seating capacity.

Section 2. Every person, firm, association of persons or corporation shall pay for said license, if the same is granted, for the use of the City, the sum of twenty dollars for each motor bus, jitney or taxi for

which a license is desired, and one dollar per seat of the seating capacity thereof, exclusive of the driver's seat, which shall also be stated in the license issued and the record thereof. Said license shall expire on the thirty-first day of December of the year in which issued and shall not be transferable, and shall be forfeited upon the conviction of any improper or unlawful conduct by the licensee or his servant in the management of said motor bus, busses, jitney or taxi, or of any violation of the provisions of this Ordinance.

Said City shall issue to the licensee a metal plate bearing the words "Licensed Motor Vehicle, No. \_\_\_\_\_, Rochester, N. H., 19 \_\_\_\_" setting forth the serial number of the license and the year in which the license runs. Said plate shall be attached to and kept on the dash of the bus, jitney, or taxi at all times, during the license term when the motor bus, jitney or taxi is in use in any street or public place in said City.

Section 3. Any person holding a chauffeur's license under the laws of the state of New Hampshire may operate any such vehicle as shall have been licensed within said City.

Section 4. The driver or person in charge of any such vehicle shall not permit the same to stand or to wait for passengers in any street, square or public place or part thereof, except on such portions thereof and during such hours as may be prescribed therefor by the City Marshal of said City, and said Marshal from time to time may fix such locations therefor and shall fix some location in some street or streets, public place or public places, or part or parts thereof, in the Central Sections of the City in which the general street travel will not be materially interfered with, where such busses, jitneys or taxis may stand or wait for passengers, and said Marshal at any time when he finds such location materially interfering with public travel may cancel such location and substitute another location therefor. No such driver or person on any day shall stop any such vehicle for a longer period than ten minutes at a time in any street or public place or part thereof except in such portions of the highway as have been prescribed by the City Marshal or when stopping to observe street traffic regulations, or when required to do so by reason of street traffic congestion.

No driver or person in charge of any such vehicle shall solicit passengers by outcry or operate any noise or other device for the purpose of soliciting passengers.

No greater number of passengers shall be carried at any time in any such vehicle and no person driving or in charge of any such vehicle shall take on or suffer or permit any more persons to ride or be carried therein at any one time than their license provides, excepting, however that in addition thereto children under seven years of age may be carried therein in arms or seated in laps of parents or adult persons accompanying them.

Section 5. The violation of any provisions of this Ordinance shall be punished by a fine not exceeding twenty-five dollars.

Section 6. It shall be the duty of the City Marshal to see that the provisions of this Ordinance are enforced.

Section 7. No operator of any motor vehicle other than one operating a bus or taxi shall park or stand his vehicle in any officially designated taxi or bus stand, except that the operator of said vehicle may temporarily stop in such taxi or bus stand for the purpose of, and while actually engaged in taking on or leaving passengers, or taking on or unloading merchandise.

This act shall not apply to vehicles operated under authority of the Public Service Commission of New Hampshire.

Passed April 2, 1935.

---

#### RESOLUTION FOR ANNUAL APPROPRIATION

*Resolved by the Mayor and City Council of the City of Rochester:* That there shall be raised, and there is hereby ordered to be raised, with such overlay as may be found necessary, on the polls and ratable estates within the said City \$304,722.77 to defray the necessary expenses of the City for the ensuing year, which together with the sums which may be received from various sources, shall be appropriated.

That the sums which may be received from various sources shall be a part of the general fund.

Passed April 2, 1935.

---

**RESOLUTION TO EXTEND SEWERAGE ON  
PORTLAND STREET**

*Resolved by the Mayor and City Council of the City of Rochester:* That the present sewer project be extended from Chamberlain Street to Adams Corner, a distance of sixty-nine hundred feet, in an easterly direction, all moneys unexpended in the present project to be transferred to the construction of the new project.

Passed May 7, 1935.

---

**RESOLUTION TO EMPOWER THE MAYOR TO  
DISPOSE OF PROPERTY FOR NON-  
PAYMENT OF TAXES**

*Resolved by the Mayor and City Council of the City of Rochester:* That the Mayor be empowered to sell any property for which the City of Rochester holds a tax collector's deed and which has been recorded as such by the Register of Deeds of Strafford County at such time and on such terms as will best serve the interests of the City.

Passed June 4, 1935.

---

**RESOLUTION TO RAISE \$600.00 ADDITIONAL  
FOR THE FIRE DEPARTMENT**

*Resolved by the Mayor and the City Council of the City of Rochester:* That the appropriation of the Fire Department for the year 1935 be increased by \$600.00 to take care of needed changes in the fire alarm system. This amount to be in excess of the amount passed at the March Meeting, and the Assessors directed to include the same in the Budget, as passed to them for taxation.

Passed June 4, 1935.

---

**RESOLUTION TO HIRE MONEY IN  
ANTICIPATION OF TAXES**

*Resolved by the Mayor and the City Council of the City of Rochester:* That the Committee on Finance be authorized to borrow on notes of the City, in anticipation of taxes for the year 1935, fifty thousand dollars additional to what has already been voted.

Passed June 28, 1935.

RESOLUTION TO FILE APPLICATION TO F. E. A.  
TO FINANCE PARKING PROJECT  
FACTORY COURT

A Resolution authorizing the City of Rochester to file an application to the United States of America through the Federal Emergency Administration of Public Works for a grant to aid in financing the construction of Fire Protection, Health Conservation and Parking Project, and designating the Mayor, Sumner W. Watson, to furnish such information as the Government may request.

*Be It Resolved by the City Council of the City of Rochester:*

Section 1. That Sumner W. Watson, Mayor, be and he is authorized to execute and file an application on behalf of the City of Rochester to the United States of America for a grant to aid in financing the construction of Fire Protection, Health Conservation and Parking Project.

Section 2. That Sumner W. Watson, Mayor, be and is hereby authorized and directed to furnish such information as the United States of America through the Federal Emergency Administration of Public Works may reasonably request in connection with the application which is herein authorized to be filed.

Passed August 6, 1935.

---

RESOLUTION OF SYMPATHY

Whereas it has pleased the Almighty to remove from our midst, by death, our esteemed friend and fellow-councilman, Harry G. Bickford, who has for many years occupied a prominent rank in our midst, maintaining under all circumstances a character untarnished, and a reputation above reproach.

Therefore, Resolved, That in the death of Mr. Bickford we have sustained the loss of a friend whose fellowship it was an honor and a pleasure to enjoy; that we bear willing testimony to his virtues, to his unquestioned probity and stainless life; that we offer to his bereaved family and mourning friends, over whom sor-

row has hung her sable mantle, our heartfelt condolence, and pray Infinite Goodness may bring speedy relief to their burdened hearts and inspire them with the consolations that hope in futurity and faith in God give even in the shadow of the tomb.

Resolved, that a copy of these resolutions, properly engrossed, be presented to the family of our deceased friend.

JOSHUA STUDLEY,  
JOHN F. CONRAD,  
J. C. PRINGLE,

*Committee.*

Passed August 6, 1935.

---

#### RESOLUTION TO TRANSFER FUNDS FOR SEWERAGE CONSTRUCTION

*Resolved by the Mayor and the City Council of the City of Rochester:* That on the completion of the Sewerage Construction on Portland Street to Fred Chalmers' Greenhouse, the remainder of such funds be used for Sewerage Construction in the Rochester Hill Section.

And that the Resolution passed May 7, 1935, be amended so that the City is not holden to complete the 6,900 feet at that time voted, and the said George D. Dame is authorized to complete said Portland Street Project when said Sewerage Construction reaches a point opposite Fred Chalmers' Greenhouse.

Passed August 6, 1935.

---

#### RESOLUTION TO PROVIDE FOR DEFICIT IN THE POLICE DEPARTMENT APPROPRIATION

*Resolved by the Mayor and the City Council of the City of Rochester:* That the Finance Committee be and hereby are empowered to expend a sufficient sum to pay the running expenses of the Police Department for the remainder of the year, payment to be made from funds of the City that may be on hand.

Passed October 1, 1935.

RESOLUTION TO TRANSFER \$1,500.00 FOR  
HIGHWAY PURPOSES

*Resolved by the Mayor and the City Council of the City of Rochester:* That the sum of \$1,500.00 be transferred to the Highway Department for use in snow removal and road maintenance to be expended under the sole direction of the Street Commissioner. Said \$1,500.00 to be taken from balances not otherwise expended.

Passed December 5, 1935.

## FINANCIAL STATEMENT

---

*To the Honorable Mayor and City Council:*

Herewith is submitted a report of the financial condition of the City of Rochester at the close of business December 31, 1935, together with supporting statements showing the results of operations for the year.

A financial report of the City should show the following:

- (1) The Capital Assets and the Funded Debt. (These are shown in the first section of Schedule 1.)
- (2) The Current Assets and Liabilities, and the Current Working Capital, as exhibited in the Revenue Surplus Account. (The second section of Schedule 1.)
- (3) An Analysis of the Revenue Surplus, showing the changes in the Current Working Capital. (Schedule 2.)
- (4) The variations between the actual Revenues and Expenditures, and the Estimated Revenues and Authorized Appropriations, as adopted in the Budget. (Schedule 3.)
- (5) Statements of Cash Receipts and Disbursements. (Schedules 4 and 5.)
- (6) Supplementary Schedules supporting the Balance Sheet and Budget Analysis.

The Funded Debt remains the same as on January 1, 1935. Fourteen thousand dollars of Sewer Construction Notes have been issued, and a like amount of School House Bonds have been paid, leaving a total of \$117,-000.00.

The Current Working Capital shows a decrease of \$3,314.86, accounted for as follows:

Deficit on Overlay of Taxes for 1934 .....	\$2,223 08
Deficit on 1935 Budget .....	1,091 78
	<hr/> \$3,314 78

J. STACY TRIPP.

## LIST OF SCHEDULES

1. General Balance Sheet.
2. Analysis of Revenue Surplus.
3. Comparative Summary of Revenues and Expenditures.
4. Statement of Cash Receipts.
5. Statement of Cash Disbursements.
6. Schedule of Real Estate and Personal Property.
7. Schedule of Funded Debt.
8. Statement of Tax Liens and Tax Title Accounts.
9. Statement of Tax Anticipation Borrowing.
10. Statement of Overlay of Taxes (1934 Account).
11. Cost of Sewer Construction (Portland and Adjoining Streets).
12. Statement of Comparative Revenues (1934 and 1935).
13. Statement of Comparative Appropriation Charges (1934 and 1935).
14. Statement of Special Appropriation for Sewer Construction.

	Oil used .....	19 qts.
	Lodgers .....	1,002
	Doors found unlocked .....	95
	Dogs killed .....	48

Respectfully submitted,

FRED S. HARTFORD,

City Marshal.

## REPORT OF CITY SOLICITOR

---

*To the Honorable Mayor and City Council of the City of Rochester:*

At the beginning of the year 1935, two cases were pending against the City of Rochester—Maybury Shoe Company and Wyandotte Worsted Company, both for abatement of taxes. The claims made on behalf of the Maybury Shoe Company have not been granted or pressed for final disposition. The petition for abatement of taxes brought by the Wyandotte Worsted Company was disposed of by complying with the suggestion made by the Tax Commission.

The only action now pending in which the City of Rochester is a party is the petition for a declaratory judgment brought by Mabelle M. Coleman and others against the School District of Rochester, as to certain rules and regulations of the School Board forbidding the nomination, election or employment of married women teachers. The matter came on for a hearing before the Superior Court and was referred without ruling to the Supreme Court. The matter is now pending.

There appear to be no other actions or causes of action pending before the Courts wherein the City of Rochester is a party.

Respectfully submitted,

GUY SMART,

City Solicitor.

# REPORT OF CLERK OF POLICE COURT

*To the Honorable Mayor and City Council:*

I herewith submit a statement of the condition of the finances of the Rochester Municipal Court as of December 31, 1935:

Respectfully submitted,

WILLIAM E. JACOBS,

Clerk.

This is to certify that I have examined the accounts of William E. Jacobs, Clerk of the Municipal Court of Rochester for the year ending December 31st, 1935, and I find them as set forth in the above statement with all payments to the Treasurer properly received for and a cash balance on hand of \$100.63.

GARDNER S. HALL,

Justice.

## REPORT OF SEALER OF WEIGHTS AND MEASURES

---

*To the Honorable Mayor and Council:*

Since January 1, 1935, I have inspected and re-inspected when necessary, 48 public stations with 183 gasoline pumps. Four hundred and ten stores, shoe shops, mills and farmers' scales, 8 coal scales, 1 Boston & Maine track scale. Tested all ice truck scales, peddlers' and junk men's scales.

I have made 5 trips to North Rochester, 7 to East Rochester, 4 to Gonic and 3 to Meaderboro Corner. Measured up all wood trucks and had them marked as required by law.

I have reweighed loads of coal, and made several trips to the stores to reweigh bags of potatoes and other provisions; also kept track of berry boxes and apples.

Respectfully submitted,

J. B. CALLAHAN,

Sealer of Weights and Measures.

# REPORT OF CHIEF ENGINEER OF FIRE DEPARTMENT

---

*To the Honorable Mayor and City Council:*

In rendering my report of the Fire department for the year ending December 31, 1935, I would state that we have been very fortunate in not having many serious fires, but we may not always be so fortunate, therefore, it stands us in hand to be prepared for whatever emergency may arise by having up-to-date equipment.

There have been 13 bell alarms, 107 still alarms, mostly chimney fires, 25 brush and forest fires in the city proper; 9 bell alarms, 14 still alarms, 4 brush and forest fires at East Rochester; 2 bell alarms, 7 still alarms, 1 brush and forest fire at Gonic; making a total of 182 alarms for the year.

Out of town calls: We assisted Somersworth January 2 in their fire.

October 26 we assisted Farmington in their fire.

East Rochester assisted West Lebanon on July 31 in their fire and South Lebanon on August 4 in their fire.

The amount of property involved in fires is as follows:

Value of buildings .....	\$199,450	50
Insurance on same .....	260,650	00
Losses paid .....	28,890	63
Value of contents .....	137,547	00
Insurance on same .....	310,577	00
Losses paid .....	31,463	13

The men at the fire station have put out 20 fires where some parts of the buildings were afire and 17 automobiles and trucks this year which have saved a lot of bell alarms this year.

I will recommend that the City purchase 500 feet of 2½-inch rubber lined double jacket hose as Gonic

and East Rochester are lacking hose. We find our hose is in bad condition.

I will recommend that the City purchase some more fire alarm boxes. We still have 2 old boxes in service.

I will also recommend that the City put another permanent man in the Central station as a house man. We leave this station with the doors wide open, with the siren blowing and nobody to shut it off, or to pull back the indicator, or answer the telephone.

I will recommend that the City trade the old Ela truck in for a new 600 gallon pumping car with a booster pump on it. This truck has been in service 20 years. It will have to go under heavy repairs before long. It would be better to trade it now than to wait and trade them all at once.

In behalf of the Fire department, I will take this opportunity to extend our sincere thanks to all those who have been kind and have given to the department to show that they appreciate its good work.

In behalf of the Board of Engineers, I will take this opportunity to extend our sincere thanks to all the officers and members of the Fire department for the promptness in which they have discharged their duties during the past year.

In conclusion, I will take this method to thank the Mayor and Fire committee and members of the City Council for what they have done for the Fire department during the year just ended.

Respectfully submitted,

JOHN F. NUTE,  
Chief of the Fire Department.

---

At a meeting of the trustees of the Rochester Public Library, December 30, 1935, it was voted that the report of the secretary, librarian and treasurer be presented to the city council as the annual report of the trustees for the year 1935.

## REPORT OF LIBRARY TRUSTEES

---

*To the Honorable Mayor and City Council:*

Gentlemen:—The Board of Trustees of the Rochester Public Library respectfully submit its forty-second annual report together with the report of the librarian and city treasurer.

You may learn from the librarian's detailed report how the money allotted by the city council, and that received from the endowment funds have been allocated. The tastes of the library patrons are varied and change with the trend of the times, and the librarian in the selection of new books and magazines has adequately met these demands.

We heartily thank the city council for acceding to our request for funds sufficient to repair and paint the exterior, and redecorate the interior of the library. These repairs were much needed, and we are confident that the public is much pleased with the improved appearance of the building, and highly approve of this expenditure.

We may be pardoned for repeating our appeal previously made to someone interested in the worth of such an institution to the community to establish an endowment, the income from which should be used wholly for the upkeep of the building. Such a contribution would be a lasting memorial to the donor.

We compliment the entire library staff for its continued courteous, interested and effective service.

For the Trustees,

JOSEPH F. SWEET,

Secretary.

## REPORT OF LIBRARIAN

---

*To the Board of Trustees of the Rochester Public Library:*

Gentlemen:—History, whether of breath-taking world events or the simple record of a year's work at a public library, is but a statement of facts as the recorder knows them. You have been informed from month to month of the outstanding events therefore this report for the year 1935 is but the summing up of all those facts and figures which have made up its history.

The first thing to which your attention is called, as you will see by the table of statistics which follows, is its growth. One thousand one books have been added but owing to the deduction of 97 books which have been discarded, lost or destroyed by patrons the gain has been but 904 and the total number of accessioned volumes, 33,104.

Figures, the only medium which can give any idea of the use of the library, convey only a partial impression of its usefulness. One cannot estimate its ethical, psychological or educational value to the community.

There has been a decided drop from the hectic circulation of last year, an almost impossible figure to maintain with the resources at our command. Up to July the circulation records show an increase over last year the decrease having occurred during the last six months.

Many changes have taken place in our city and many good readers have left Rochester, books are larger even novels contain more pages, non-fiction is more popular than ever and it takes longer to read it and the women are knitting. Each of these facts have contributed to the decrease in circulation.

The total circulation for the year was 93,152 an average of nine books to each resident. The only department which has shown an increase is the East

Rochester Branch and the only classes ahead of last year Useful and Fine Arts, due probably to the demand for books on aviation, hobbies, constructive work of all kinds, mechanics, gardening, floriculture and sports.

It is a pleasure to see the interest and absorption of the readers and to notice their appreciation of the 101 magazines and periodicals which with a few exceptions they find on the reading tables. The ignorance and selfishness of a few library vandals who will tear out coupons, dress designs and pictures for scrap books have made it necessary to keep some of the magazines in the stack room to be called for when wanted. The number of readers and students counted was 17,191. The children's reading room shows an increase of 1,148 over last year.

During the afternoons of the school year the reference room has been filled with pupils many of them requiring assistance. It is a most regrettable thing that with all that the library tries to do for the schools, that there lives a High School freshman with soul so dormant that he would deliberately tear a page from a new and expensive encyclopaedia rather than write the facts wanted.

It is with joy that I speak of the attractive appearance of reading, reference and children's rooms, office, delivery room, stairway and gallery which have been cleaned even to the very floors and redecorated. Their forlorn and hopeless condition of a year ago has given way before the workmen who have restored them. The stack rooms, lecture room, trustees' room and basement now beg for your attention.

It is needless to speak again of the cramped condition. There is no more shelf room and no place but trucks, benches and the floor for the five or six thousand books which are in circulation or on display and the new books which must be added next year.

The museum has claimed much attention. Often people come from far places to see the collection of minerals. The best collection in New Hampshire they say. A second story should be added over the supposedly fire proof stack room in order to care for and properly

display these valuable collections. At the present time many interesting things have been packed away as there is no place to exhibit them.

There is much more to library work than the addition and circulating of books and sometimes the lesser circulation is an advantage as it gives the staff time to catch up with long delayed work. During the year over 10,000 books have been repaired, a summer reading contest has been carried on, new book week observed, shelf lists and catalog cards copied to some extent, files cleared of dead matter, pictures mounted, additions made to the collection of scrap books, the usual annual inventory taken and a requested inventory of the movable furnishings and equipment made with their estimated value. These and many other things have been accomplished in addition to the routine work.

In all the work of the year I have had the faithful cooperation of the entire staff. They with me wish to express their appreciation for the kindness of the patrons and the encouragement which their thoughtful expressions of appreciation for services rendered gives to them.

At this time I would again express my thanks to the trustees for their interest in even the minor details of the work and the encouragement which they are ever ready to give.

Respectfully submitted,

LILLIAN E. PARSHLEY,

Librarian.

Rochester, N. H., December 30, 1935.

## LIBRARY STATISTICS FOR 1935

## GROWTH

Number of volumes in library January 1, 1935	32,200

C. EDWARD GOODWIN

# REPORT OF SUPERINTENDENT OF SCHOOLS

---

*To the Members of the Rochester School Board:*

I herewith submit the annual report of the Rochester School Department which is the third under my supervision and the forty-fourth in the series. Rather than an abundance of statistical information there will be presented for your consideration a discussion of current practices and recommendations which may help to shape our school policy in the year ahead. Furthermore, we shall try to present such facts as parents may find of interest if they take time to read this report.

## THE HIGH SCHOOL

The report of the headmaster presents several aspects of our high school work which merit careful consideration by all of our citizens. That report is printed in full.

In the previous report your attention was called to the fact that special efforts had been made to assist pupils in a wise choice of high school electives, a more favorable adjustment to high school conditions, and a prolongation of high school experience. All of those efforts have been maintained and with a good deal of success, as evidenced by the decreased withdrawal of pupils from high school. When large numbers of pupils on whom there is no legal compulsion to attend school choose to remain with us we may assume that our school is meeting a real need. If further proof is necessary it may be found in the steadily increasing number of tuition pupils who come to us from other towns and who account for our maximum freshman class registration of 160 members.

But the most important thing about our high school for us to discuss is the building itself and the imperative need for improved and enlarged facilities when another school year opens. The principal defects listed below will give you a fairly comprehensive

view of the administrative difficulties encountered in our present building.

- (1) Inadequate laboratory space.
- (2) An assembly hall that accommodates only two classes.
- (3) Not enough recitation rooms.
- (4) About one-half the space needed for home economics classes.
- (5) A heating system that is at present unsatisfactory.

When serious discussions are undertaken relative to new construction there are several possible plans to be considered. It seems to me that Rochester must first decide whether we are to organize on the present 8-4 plan, the 6-3-3, or the 6-6 type of high school. When that decision is made it will then be necessary to choose whether we shall add to our present building, erect a new building for either senior or junior high grades, or create an entirely new unit to house the six upper grades of our school system. It is my opinion that we shall very likely make a wise decision if we abandon our present 8-4 plan in favor of either the 6-3-3 or the 6-6 form of organization. The 6-6 type offers several economies in administration that are not found in the other two.

The foregoing suggestions merely point out the trend our discussions ought to take but there remains one fact that cannot be too greatly emphasized. Over ten years ago this city was convinced that the high school building was inadequate for our needs and almost decided to undertake the needed construction, but for some reason stopped short of the decision. Since that time our high school has greatly increased its membership and we still contend in 1935 with even more unfavorable conditions than were regarded as unsuitable in 1925.

#### DEPARTMENTAL WORK

Whatever the final decision may be regarding a high school building it is my judgment that departmental instruction in grades seven and eight should be organized so far as physical limitations permit. In rooms or schools where a teacher has two grades such a plan cannot be developed and this would apply to East Roch-

ester and Gonic but in all others it would be wholly feasible. While none of us should hope for any other outcome than a new high school organization we ought to be prepared to adopt whatever plan promises the best adjustment for prospective high school pupils.

### PROFESSIONAL IMPROVEMENT OF TEACHERS

More rigid requirements for approval of those who enter the teaching profession establish in teachers an attitude of mind that welcomes opportunities for continued growth and skill. The manifestations of that tendency are shown in the increasing number of teachers who strive for professional improvement. During the summer of 1935 seven of our teachers were at New Hampshire University, four were at the Keene Normal summer session, six were engaged in travel, and one was at Columbia University. With over one-third of all our teachers preparing for more efficient work the schools cannot fail to benefit. With the return to more nearly normal economic conditions many towns and cities throughout the country will undoubtedly restore financial assistance plans which were suspended by reason of revenue shortage. It seems to me that this department might well consider whether it is advisable for us to resume some measure of reimbursement to those who engage in professional improvement.

### TEACHERS' MEETINGS

Teachers' meetings also furnish a means of growth while in service. The regular monthly meetings of our teachers have been planned for the purpose of giving definite helps and meeting needs so far as they are known. It is my belief that those meetings are most valuable which the teachers themselves help plan and for which they have some responsibility. A committee of teachers, one from each building, worked with me planning our meetings after they had received suggestions from the other teachers in their buildings. It has been and now is our policy to invite teachers from neighboring school districts to meet with us twice each year when we have outside speakers. The December meeting was devoted to the general subject of health teaching with Miss Elizabeth Murphy, State Su-

pervisor of Health, as the speaker. We hope to have a Massachusetts superintendent of schools at the April meeting.

Since these discussions are of direct value to our schools, even as textbook equipment is, it would be proper for this department to assume a small part of the expense if funds were available for that purpose. For example, we expect in January to have a demonstration of teaching technique and methods by a group of out-of-town teachers who should at least be paid their travel expense. When speakers come to us it would be much less embarrassing if I were able to pay their expenses. My recommendation is that the 1936 budget contain provision for financing our local attempts at professional improvement.

#### TEACHER CURRICULUM COMMITTEES

It is highly desirable that teachers be actively interested and participate in any change in classroom work or procedure because it is natural for any of us to be more enthusiastic in the execution of a plan which we have helped to formulate. Revision of courses of study and the selection of textbooks should always be tempered by the accumulated experience and judgment of the teachers who will be called upon to carry them out. Committees have been appointed to consider and report by detailed suggestions whatever changes are desirable in our teaching of arithmetic together with textbook recommendations and a written account of special methods or devices which have been found helpful. When that report is made it should constitute a valuable guide to our future work in that subject. Before the end of school in June our teachers will be asked to register their preference for a new textbook in English for use in grades three to eight inclusive. The teachers have responded with a most commendable spirit in meeting every request for cooperation.

#### ADULT CLASSES

In the fall of 1933 and again in 1934 we organized adult evening classes under federal grants for relief to unemployed teachers. It was not deemed wise to do so in 1935. Our experience during both of the preceding years revealed certain facts which appeared to

make the plan of doubtful value. Frequent notices that available funds were exhausted and that our work must soon terminate were followed by extensions of time until considerable confusion resulted. Teachers were employed three hours per day for five days a week in order to meet the requirement of fifteen hours of actual classroom work per week, and since no adult pupils could be expected to attend class on more than two nights we were obliged to build up an extensive enrollment in order to keep the teachers occupied. Moreover, teachers employed in adult classes had to be selected from a restricted group which was mainly composed of those whose qualifications were not such as to enable them to be placed in regular full-time teaching positions. The above statements are my reasons for not attempting to organize evening classes until such time as this department is in a position to finance and administer adult work entirely independent of relief measures.

#### NATIONAL YOUTH ADMINISTRATION

Another federal relief measure designed to furnish assistance to high school pupils and to further alphabetical manipulation has been in operation during the current school year. If the details of operation do not thwart the purpose of the plan many pupils should be enabled to continue their education which financial difficulties seem to threaten. Applications for assistance for some of our pupils have been filed but without any success thus far. We are still hopeful. It would be useless to state application terms and conditions because by the time this report is in print they may be obsolete by several editions.

#### PLAYGROUNDS

Closely allied to other federal projects is the development of municipal playgrounds which serve the double purpose of furnishing employment during the period of construction and of wholesome recreation for those who use them after they have been completed. Our city now has a splendidly equipped playground at Hanson's Pines which fully meets the requirements stated in my annual report for the year ending December 31, 1934, when it was pointed out that more and

better playground equipment was needed than our public schools afforded. It has always seemed to me that the appointment of a playground instructor and his supervision properly belong to the City Council rather than to the school department but so long as that work is assigned to us we stand ready to meet the responsibility. This we can well do during the summer vacation when our instructor divides his time between the swimming hole and the playground. It is to be hoped that future closing of the river to bathing will not be found necessary. We would suggest the desirability of playground supervision for a more extended period than during the summer vacation because large numbers of children will need direction long before the end of school in June and after the fall opening in September. The advisability of posting a guard in police uniform at the playground is open to grave doubt.

### INDIVIDUAL ACHIEVEMENT

Frequent reference is made to the high ranks received by our pupils of all grades and appropriate recognition extended. While there may be some danger of over emphasis we shall all probably agree that it is only proper to accord some small measure of recognition in school to superior ability which will merit special mention in later life. But there is another kind of school record that to me has greater significance than winning high rank because of rich natural endowment and that is outstanding accomplishment as the result of persistent application and effort. In my opinion, the pupil who makes full use of his natural powers and receives a rank of "C" is more to be commended than one who makes only partial use of superior ability and receives a "B". It is my belief that those pupils will become the most outstanding citizens whose record is one of complete use of the physical and mental gifts bestowed on them. Valuing high marks for high marks' sake is based on fallacious reasoning.

### HABIT FORMATION

Correct habit formation will bring about a fuller use of natural ability as discussed in the previous paragraph. In order to develop correct habits and attitudes teachers must insist on methods and practices

which are misunderstood and questioned by parents. Pupils are being constantly checked on tardiness, attendance, writing, posture, neatness, spelling, manners, and a multitude of little details which try teachers and worry parents who often question whether anything is ever just right. The reason for such insistence is that the law of habit formation requires constant repetition without deviation. That is why an aviation student is never allowed to conclude a period of instruction with anything but successful performance or one learning to drive an automobile is required to keep on trying until he can leave off with something correctly done. The workman who paints a fence does not skip aimlessly from one picket to another but does a whole surface before leaving it. In like manner no successful glass cutting can be done without tracing and retracing in the same path. In the training of children deviation and departure from standards are productive of impaired results. That is why teachers follow a procedure which too often leads to criticism.

#### IMPROVEMENT OF BUILDINGS AND GROUNDS

The environment under which children work has much to do with the establishment of proper attitudes and habits. Shabby textbooks do not prompt one to observe careful use; dingy corridors and basements do not suggest neatness or respect for property; barren, dismal school yards do not furnish a pattern to be imitated in the care of a home. We ought to place before our children those suggestions and influences that can be carried over into their after-school lives with the most benefit to them. As a beginning in that attempt the basements of the High School, at Gonic, and at the Allen Schools have been painted white to be more attractive and to emphasize the desirability of cleanliness. The way in which the pupils have cooperated to keep those basements clean proves the soundness of the belief that they really appreciate attractive surroundings.

A similar response would undoubtedly follow the improvement of our school grounds by landscape gardening and more playground equipment. There is a real need for landscaping at Gonic, East Rochester,

and the Allen Schools and in no place would it be necessary to give up space needed for play. Every elementary school ground needs more swings, slides, and see-saws than we now have. It is my hope that we can undertake and complete one landscaping job each year until our school grounds are such as to inspire the admiration of the pupils. When that is realized we shall have one of the strongest guarantees of proper attitude towards school and towards public property.

### BUILDING MAINTENANCE

The foregoing discussion leads naturally to the subject of building maintenance. With the exception of the East Rochester building every school house in the city needs an exterior paint job but probably none is so badly needed as at School Street. If my information is correct that building has not been painted since it was erected. It is my recommendation that bids be requested for painting that building and one other, preferably the Allen School. The entire interior of the East Rochester school house ought to be painted in order to cover the walls with a washable surface and to modify the striking color scheme that now exists. The ceilings in the lower high school rooms have been patched until the time has come when a complete renewal seems best. These are the major items of maintenance for the consideration of the whole school board; other items should be delegated to the School-houses and Grounds Committee for budget recommendation.

### SCHOOL SAVINGS

The Rochester School Board at the November meeting authorized the introduction of thrift teaching by means of school savings. Acceptance of a thoroughly tested plan was made possible by the cooperation of the Rochester Trust Company which will handle the accounts. Pupils will be able to make school deposits in amounts from one cent up to suit their convenience. If we can realize our expected results of prudent saving, wise spending, and a sense of values then the action of this Board will stand as one of its most progressive.

### SPECIAL CLASS

Our compulsory school attendance laws are based on the assumption that all pupils can profit by such attendance until they reach the age of sixteen or have completed elementary school training. That assumption is, in general, correct but natural limitations and our school organization prevent a complete realization of that hope in all cases. It therefore follows that we have scattered here and there throughout our schools several pupils who are not now receiving and cannot receive the maximum benefit and training to which they are entitled. They are merely marking time until chronological age frees them from further attendance. In the meantime problems of management are created which might be avoided, with consequent profit to the individual, if we had the proper class formation for them. That is my reason for advising the organization of a special class.

In making that recommendation I am fully aware of the arguments that will be raised against it but they do not impair the soundness of provision for those who do not find, in our regular classrooms, what they need. Our schools are under heavier obligation to those whose progress must always be slow than to those for whom life is much more complacent.

### SCHOOL PHYSICIAN

Our school physician is now elected on a non-salary basis and as a matter of form. Since his duties as city physician include only a small number of the cases we may want to refer to him it seems highly advisable to change our procedure. This official should be elected on a stated salary to cover all services that may be required by the school department or our appropriation for nurse and medical supplies should be increased to provide payment for work requested by us. It is not satisfactory to a school physician to be asked to work on a charity basis nor is it acceptable to us.

### SCHOOL TRANSPORTATION

The present three-year transportation contracts expire at the close of school next June and terms for another period must be arranged. At the proper time

I shall submit to the Transportation Committee definite proposals regarding the type of vehicle to be used, the extent to which drivers may engage in non public school transportation on regular trips, and a review of general conditions of transportation. Certain prevalent misinformation, legendary promises, and hazy misunderstandings make a thorough canvass of this important department activity imperative.

### APPRENTICE TEACHING

The Rochester plan of apprentice teaching can best be described by quoting the section that states the object: "The Rochester Plan of Apprentice Teaching is designed to give qualified graduates of college or normal school an opportunity to acquire teaching experience and to demonstrate their proficiency under the supervision of our own school staff." It is of equal importance here to quote another sub-division in which a valuable safeguard is stated: "It is expressly stated and agreed that permission to apprentice does not constitute an obligation or a promise of ultimate employment in the schools of Rochester."

Any plan that would restrict or limit the choice of the best possible teachers, local or non-local, for our schools is to be frowned upon. We believe both the letter and the spirit of our plan guarantee unrestricted choice.

### MARRIED TEACHERS

School boards and school departments all over the country have been agitated and disturbed by discussions as to whether the choice of women teachers shall be limited to those who are unmarried or whether no other restrictions than qualifications and teaching ability shall apply.

As a result of these discussions a wide range of policies, gentlemen's agreements, and regulations have been put into operation. In most cases the actions of school boards were not directly challenged although vigorous disagreement therewith has been expressed. The action of the Rochester School Board was challenged as unconstitutional by a group of seven married women, whose nomination and election were forbidden by the 1935 Rules and Regulations, and one other who

denied the validity of a contract which called for the termination of her services on marriage. The cases of these teachers are now before the Supreme Court for a decision on the constitutionality of the local board Rules and Regulations which bar them from continuing as regularly elected teachers in our schools. Pending such decision all of them have been allowed to resume their teaching duties.

Whatever position one may take in the case and however much one may regret the attendant publicity, no one can deny the desirability of having a Supreme Court decision to settle this vexing question. The cause of education not only in New Hampshire but also in this section of the country will be benefited by a definite settlement of arguments which wax and wane according to whether we are in the midst of depression or plenty.

#### FUNDAMENTAL PUBLIC ATTITUDES

Any discussion in this report that savors of partisanship would be out of place and yet I should be failing to do my whole duty if the following presentation were not made for your consideration. No political bias is intended or attempted as I suggest the educational significance of certain very pronounced changes in public psychology and attitudes as they appear to exist. As new and more far-reaching demands are made on public schools and as our young people are subject to varying tides of influence and thinking we cannot remain unmindful of resultant implications for education. Some of the influences are here discussed.

1. We are witnessing a growing tendency toward group jealousy and a concerted get-as-much-for-ourselves-as-we-can movement regardless of its effect on others. It must be admitted that genuine satisfaction because of the progress of some other person has given way to envy and a desire to pull him down to the level of those less fortunate. Advocacy of impossible pension schemes, sectional profit at the expense of other parts of the country, entrenched minorities with powerful legislative lobbies, and artificial interference with natural laws present hazards to our youth who are in the formative stage of thinking.

2. They are likewise led to question the value of sincerity when they witness the passage of legislation, which everyone believes to be unsound, merely as a matter of expediency. When the highest legislative body in our country pushes through measures whose constitutionality is seriously questioned even by those who are their staunch supporters in the hope that an actual test can be avoided and in the knowledge that temporary operation cannot be prevented then it is no wonder that our youth draw strange conclusions. And when the authority which thwarts those purposes is assailed by the ones from whom exactly opposite responses should be recorded we need not seek in distant realms for the germ of non-respect for authority.

3. The sacredness of a pledged word or a written contract has been the guiding principle in generations past but the high ideals seem to have slipped backward to permit sacredness to fluctuate with convenience. When governments can evade their contractual obligations with impunity it should occasion no great surprise that individuals attempt to travel the same easy road.

4. However worthy the motive and imperative the need which leads to the extension of governmental authority the net result must always be an impaired individual ability to assume responsibility. No one questions the need for a sling and splints in treating a broken arm, neither can one deny that their continued use dwarfs the power of the injured member. Normal functioning can be resumed only by exercising and throwing off artificial props and supports. If this is true in our physical experiences, it is also true in mental processes and attitudes, yet the history of the last two decades has been one of steady assumption of individual functions and responsibilities by federal, state or local government. This suggests that there may be a real reason for many of the tendencies that are objectionable.

5. Ugly necessity has given rise to practices of transitory and questionable character which serve to cloud the vision of our youth. No great mental stature is needed to discern the folly of trying to paint buildings in winter weather or of building roads when frost conditions are unfavorable, and yet school chil-

dren have witnessed numerous attempts of like character all over the country. They must be dull indeed if they cannot detect the artificial generosity which spends public or private means not the spender's own. By example they are induced to throw discretion to the winds and to join the ever-widening circle of seekers in the public grab-bag. To insist on value received for money spent, when that money is legislatively appropriated, is to revert to a practice that is fast becoming obsolete.

6. The breakdown of conventions and standards of conduct formerly accepted as desirable presents a moral hazard whose true force will be increasingly realized as the years pass. Personal integrity and honesty, temperance, respect for the spirit of law as well as for the letter, sanctity of the home, and business honor cannot become impaired without shaking the very foundations on which character is built. Every convention that is sacrificed and every ideal shattered on the spear-head of social, political, or financial expediency means one less anchor for us in the storms of life. Our youth are thus deprived of the incentive to develop that moral stamina which has made our people great.

The foregoing discussion is presented in an attempt to picture something of the present and future responsibilities to be placed on our schools. Those of us who are genuinely interested in the proper development of our young people can only trust that sincere devotion may help point the way to a wise solution of the problems which are sure to arise. Let us be steadfast and persevering in the important tasks placed before us as administrators and conservators of the heritage of American youth.

Grateful acknowledgment is here made to the public and to the School Board for every evidence of kindly cooperation it has been my privilege to enjoy during the year just closed.

Respectfully submitted,

ARTHUR S. ROLLINS,

Superintendent of Schools.

# REPORT OF HEADMASTER OF HIGH SCHOOL

---

*Mr. Arthur S. Rollins, Superintendent of Schools,  
Rochester, New Hampshire.*

Dear Mr. Rollins:

I herewith submit my thirteenth annual report as Headmaster of the Rochester High School.

## REGISTRATION BY CLASSES

September 3 to December 13, 1935

	Post Boys	Grad. Girls	Seniors Boys	Seniors Girls	Juniors Boys	Juniors Girls	Sophomores Boys	Sophomores Girls	Freshmen Boys	Freshmen Girls	Total Boys	Total Girls

### RESULTS OF SCHOLASTIC WORK

State Tests were given to all seniors during the spring of 1935. The tests were English, Spelling and Intelligence. Rochester was above the state standard and the state median in English and spelling.

Pupils who entered college for the first time this fall have been doing satisfactory work in all subjects. Some of the pupils have received honor ratings.

There have been fewer failures in high school during the fall of 1935 than for a number of years. This is rather remarkable because teachers have less time in the class room and less time for special work with pupils than in 1934.

More pupils have obtained honor ranks during the fall of 1935 than in 1934.

More pupils have been back for afternoon help from teachers during the fall of 1935 than in 1934. The large number of pupils who have returned for help, and the heavy teacher load, has made individual help for pupils a very serious problem.

Special groups of college preparatory pupils have been doing extra work one afternoon each week.

Sixty boys reported for football and did satisfactory scholastic work during the 12 week football season.

Football practice was omitted on Monday afternoons to allow boys to obtain help from their teachers.

### THE PROGRAM OF STUDIES AND GUIDANCE

A Program of Studies requiring English in grades 9, 10, 11, and English and United States Constitutional History in grade 12, with all other subjects as electives has given the pupils the opportunity to take such subjects as are adapted to their needs and abilities.

A Program of Guidance that will insure the success of the Program of Studies has been developed and put in operation.

At the present time the heavy load teachers are carrying seriously interferes with the successful operation of the two programs. We have been able to find time for group guidance but very little time for personal interviews which are the basis of all guidance work.

Parents who are interested may obtain copies of both programs at the high school office.

## STUDENT ACTIVITY

The Rochester High School Student Activity Association, established to promote and finance various activities of the school has been adopted by Pinkerton Academy, Franklin High School, Laconia High School and Sanford High School.

This winter a group of fifteen Rochester pupils went to Sanford and presented to the Sanford student body information regarding our association. This group of pupils was commended very highly by Mr. Purington, Principal of the Sanford High School.

The activities of the Association have been athletics, dramatics, school paper—the Red and White, Commercial Club, Latin Club and music. During the past week the Student Council voted to organize an outing club. The method of the organization is as follows:

### OUTING CLUB

Advisers: Miss Ham and Mr. O'Leary

*Winter*

Snowshoeing: Miss Ham—Mr. O'Leary.

Skiing: Miss Meader.

Time: Tuesday at 3.00. Every other week.

Ice Hockey: Boys—Mr. Maxam.

Class games: Tues. 2.30, Thurs. 4.00.

Tobogganaging: Miss Jordan and Miss Ricker.

Time: Friday at 3.00. Every other week.

Rifle Team: Mr. Stevenson—Meetings to be arranged by supervisor.

Every two weeks (either on Friday or Saturday) above clubs, excepting Rifle and Ice Hockey, combine for general meeting and party. This meeting to be held on weeks that individual clubs do not meet.

*Spring and Fall*

Tennis: Miss Ham.

Meetings to be arranged by supervisor.

Golf: Mr. Maxam.

(Spring only) Meetings to be arranged by supervisor.

Hiking: Miss Foss.

Time: Tuesday at 3.00. Every other week.

Every two weeks (either on Friday or Saturday) above clubs combine for general meeting and party. This meeting to be held on weeks that individual clubs do not meet.

#### SUGGESTED METHOD OF ORGANIZATION

Controlled by Student Activity.

Outing Club to be represented by committee in Student Activity.

Each club to be a separate unit within the Outing Club, with officers elected by own groups.

Only those pupils who have paid their Student Activity Dues will be eligible to participate in the activities of these groups.

Clubs to be organized under the supervision of teachers.

#### SUGGESTIONS FOR CONSIDERATION

1. There were 375 juniors, sophomores, and freshmen in school December 13, 1935. There were 145 eighth grade pupils. A conservative estimate is that 490 of these pupils will attend high school. 418 pupils were registered in June 1935 for the year 1935 to 1936. The enrollment for 1935 to 1936 has been 463 with 452 pupils actually in school; an increase in enrollment from June to September of 34 pupils. If this increase is added to 490, we will have a conservative enrollment for 1936 to 1937 of 500 to 524 pupils.

2. There were 440 homeroom seats and 440 pupils in school on December 13. On September 12 there were 452 pupils in our homerooms; assembly hall chairs were used for seats. For 1936 to 1937 it will be necessary to provide homeroom seats for from 500 to 525 pupils.

3. Thirty pupils registered for biology and were obliged to substitute some other subject. There are too many pupils in each general science division for efficient laboratory work. It will be necessary to provide more laboratory space.

4. The high school assembly hall contains 360 seats.

5. If a large number of pupils elect home economics, it will be impossible for the school to meet

state standards with the present laboratory space and equipment.

6. Four days each week our seven forty minute periods meet the state minimum for length of high school periods. On Fridays the periods are 35 minutes.

7. It is impossible for the headmaster to efficiently administer, supervise, direct guidance, and teach 67 pupils three periods each day.

8. The athletic field is most unsatisfactory. For two years we have been obliged to play the Thanksgiving Day game at Durham. We will probably be unable to play there in the future.

9. There is no gymnasium and the Opera House will be used for basketball.

10. 500 to 525 pupils in 1936 to 1937 will present a serious problem in the English department with only three English teachers. The same is true in the commercial department.

11. When Mr. Grierson and Miss Meader have classes in the vocational building, we have twelve teachers to care for 14 recitation rooms and four laboratories in the main building.

12. During the fall term the school organization has been functioning most efficiently. Teachers and pupils have understood the handicaps and have succeeded in overcoming them. The spirit of the school has been excellent.

Pupils are becoming greatly interested in pupil participation in the administration of all activities. Two periods each day we have a group of study pupils in rooms 6 and 8 who are not under teacher supervision.

#### RECOMMENDATIONS

1. The present program of studies should continue in operation for 1936 to 1937.

2. The guidance program should be made more effective by granting the headmaster more time for administration, supervision, and guidance.

3. Room 14 should be made into a biology and general science laboratory.

4. The assembly hall should be divided into two classrooms. This will give the school thirteen homerooms with a seating capacity for 504 pupils.

5. At least one more teacher should be added to the faculty.

6. Six fifty minute periods, possible in the present plant with a larger faculty, should replace the present schedule.

7. An assembly hall for assemblies, class socials, dramatics, orchestra, glee clubs and student organization meetings should be obtained before the opening of school.

8. A gymnasium for basketball should be obtained during the summer months.

9. Plans should be made for seating at least 525 pupils. Such plans will require fourteen homerooms.

10. An addition of classrooms plus an assembly hall and gymnasium is imperative. If alterations are made, the office should be moved to the first floor.

#### CONCLUSION

I appreciate the helpful suggestions I have received from the superintendent, teachers, and pupils.

Respectfully submitted,

ELWOOD S. FRASER,

Headmaster.

# REPORT OF THE SCHOOL NURSE

---

*To the Superintendent of Schools:*

I herewith submit my annual report as school nurse.

The following defects were found in the physical examination of approximately fifteen hundred children:

Pupils with hypertrophied tonsils .....	79
Pupils with defective teeth .....	492
Pupils with defective vision .....	30
Pupils with defective hearing .....	70

## *Improvements Since the Last Report*

Vision improved (by securing glasses and changes of glasses) .....	20
Removal of tonsils and adenoids .....	17
Correction of dental defects .....	132
Orthopedic cases being treated .....	3

Federal milk was supplied from January to June.

Milk is now being supplied by the Milk Fund with the aid of local charity organizations to 56 children.

Home visits made during year ..... 250

Toxoid clinic was held during the spring.

School and pre-school children receiving Toxoid ..... 178

Several Tuberculosis Clinics have been held during the year.

Three children have been taken to Dr. Jones' Orthopedic Clinic in Manchester five times during the school year.

Considerable time has been spent this year discussing diets with the various mothers.

Tonsils have been removed, dental work done, eye glasses obtained, and clothing supplied to several needy children by local organizations.

I wish to thank you and all the teachers for the cooperation I have received. It has been greatly appreciated.

Respectfully submitted,

NORA C. SCAHILL, R. N.

School Nurse.

Nagella E. Richards	Leeman Norman Wormhood

**CLASS ODE**  
**MARGUERITE STEWART**

*Music—Chorus of “The Sweetheart of Sigma Chi.”*

We've been traveling the trail for four short years,  
And now we've reached the end;  
We've come to bid a fond farewell  
To teachers and to friends.  
And now we're about to walk life's trail,  
The journey may be long,  
But we'll ne'er forget all our high school days,  
And the mem'ries will linger on.

We've closed the door of high school days,  
And opened the door of life;  
As we enter it, may we find success,  
Vict'ry o'er all our strife.  
But as we start upon the road,  
The future is not known;  
We may reach our goal or find success,  
It depends on the seed we've sown.

No matter what our task may be,  
Or heavy be the load;  
If we look to God, He will guide us on,  
Be with us on life's road.  
And so, dear friends, it is time to part,  
Our sadness we can't tell,  
But with heavy hearts and tear-stained eyes  
We bid you a fond farewell.

EIGHTH GRADE GRADUATES, JUNE 14, 1935  
 ALLEN SCHOOL

*John R. Arthur	*Dorothy L. Knight
*Burton M. Bickford	*Shirley R. Knight
*Wallace L. Blanchard	*Harold J. Lemke
*Verne C. Brown	*Malcolm C. Lowe
*Philip Caplette	*Elmer W. Mallet
*Virginia Couture	*Laurence W. Malone
*Melvin S. Cummiskey	*June McCombe
*Peter J. Cummiskey	*Harold W. Merrill
Norman F. Dame	*James P. F. Mitchell
*Dorothy L. Dow	*Mary L. Mitchell
Emily A. Downs	*Alice D. Monroe
John E. Eliot	*Betty Neal
*Robert S. Fairweather	*Marjorie G. Nelson
*Stavro George	*Dorothy M. Purdy
*Elaine Grassie	*Stella Regis
*Josephine C. Guild	*Robert D. Robichaud
*Donald M. Ham	*Ralph E. Sanders
Evelyn R. Hayes	*Richard Whitehouse
*Barbara C. Horne	*Dorothy E. Woodes
*M. R. Florence Horne	

## SCHOOL STREET SCHOOL

*John Amero	*Beatrice Littlefield
*Celia Avery	*Gerine Magoon
*Josephine Barnard	*Alice Michaud
*Marion Baxter	*Ruth Michaud
*Walter Blackadar	*Douglas Miller
*Clarence Brown	*Norma Mooney
*Esme Brown	*Studley Nesbit
*Marjorie Coram	Kenneth Ricker
*Forrest Davis	*Sumner Robbins
Lorraine Emmond	*Charles Sylvain
*Priscilla Fowler	*Edith Wallace
Leodina Gauthier	*James Waterhouse
*Muriel Ham	*Donald Weare
*Leonard Hanson	*Merritt Weeks
*Albert Herdt	*Kenneth Wheeler
*John Lachance	*Betty Woodman

## MAPLE STREET SCHOOL

*Ruth Babb	*Marcia Belinsky
*Isabelle Barber	Robert Benner
*Lucille Beaudoin	Lucille Bergeron

*Rita Breton	*George MacLeod
*Lillian Brown	*Alberta Massey
*Leon Chapman	*Alma Meader
*Harriet Chase	*Ethel Nason
*Samuel Dorr	*Leroy Smith
Arthur Foss	*Annie Stearns
*Frederic Kidder	*Jeannette Toohill
*Ruth Lyons	

## GONIC SCHOOL

*Cecile M. Burbank	*Lorenzo A. Lapierre
John H. Cullen	Pauline L. Martin
*Laurence J. Foss	*Alberta Mattocks
*Gladys I. Gillis	*Irene L. Perreault
*Alva C. Hall	*Rosanna M. Portrie
*Beryl C. Gilman	*Ruth H. Young
*George F. Hurley	

## EAST ROCHESTER SCHOOL

*Arlene Ames	*Donald Lachance
Thelma Austin	*Dorothy Lawson
*Muriel Carpenter	*Clarence Longley
*Dorothy Chisholm	*Prudence Manchester
*Robert Dickie	*Richard McKenney
*Leo Dupont	*Clifton Simonds
*Beatrice Duquette	*Robert Turner
*Clayton French	*Gordon Welner
*Margaret Gilmore	*Harold Wentworth
*Samuel Gilmore	*Christine White
*Maynard Hanson	*Lawrence Winchell
*Warren Hartford	*Margaret Wright

\*Entered Rochester High School September, 1935.

## IN MEMORIAM

Alfred A. Chadbourne, East Rochester School, Grade I, September 30, 1935. Born December 24, 1928.

Frances E. Nealand, Allen School, Grade 8, October 3, 1935. Born July 31, 1922.

Olive M. Plumer, High School, Second Year, October 24, 1935. Born June 18, 1920.

Celia Avery, High School, First Year, December 14, 1935. Born November 8, 1920.

Lewis Stewart, Janitor at the East Rochester School, January 2, 1936.
